'KCNA' CITES DANISH PAPER ON KOREA'S REUNIFICATION

SK190505 Pyongyang KCNA in English 0344 GMT 19 Aug 82

[Text] Pyongyang, August 19 (KCNA)--A recent issue of the Danish paper "LARUND BOG FOLKEBLAD" carried an article on the visit of the parliamentary delegation of the Kingdom of Denmark to our country, according to a report.

The paper prints a photograph the great leader Comrade Kim Il-song posed for with the delegation after receiving it.

Also carried there are photographs of the Tower of Chuche Idea, the Arch of Triumph, Kim Il-song University, the Mansudae Art Theatre, the Pyongyang Metro, the Kumsong Tractor Plant, etc.

In an article titled "Korea Is A Country Which Solves Everyting Independently" the paper says:

Members of the Danish Parliament visited Korea and were recieved by the great leader Comrade Kim Il-song.

President Kim Il-song is a great man. He has an unimaginably great influence.

Korea which had been very backward in the past has made rapid development to become self-sufficient in all things. In Korea there is neither starvation, nor drug addict, nor alcoholic, nor corruption.

Korea is a tax-free country.

The United States keeps over 40,000 troops in South Korea under the pretext of "threat of southward invasion" and built a barrier between the North and the South, barring the reunification of Korea.

President Kim Il-song put forward the proposal for founding the Democratic Confederal Republic of Koryo and the ten-point policy of the unified state. He demands that people be let to travel between the North and the South, but the United States does not want this.

We members of Parliament held a demonstration at Panmunjom carrying a placard reading "U.S. Imperialists, Get Away At Once!"

POLISH, ROMANIAN PAPERS SUPPORT REUNIFICATION

SK121033 Pyongyang KCNA in English 1016 GMT 12 Aug 82

[Text] Pyongyang, August 12 (KCNA)--Polish and Romanian papers published articles supporting the Korean peoples cause of national reunification on the occasion of the month of the anti-U.S. joint struggle, according to reports.

In an article titled "Who Bar Reunification?" the Polish paper TRYBUNA LUDU says:

The policy of the United States which has reduced South Korea to its military base and obliterates every possibility of establishing a peace-loving, unified state is the factor rendering the situation strained on the Korean peninsula.

Noting that over 40,000 U.S. troops are present in South Korea, the paper says: A reactionary dictatorial "regime" was framed up in South Korea after the U.S. troops occupied.

The paper stresses that the government of the Democratic Peoples Republic of Korea put forward the realistic proposal for founding the Democratic Confederal Republic of Koryo and has directed patient efforts to the building of a unified state.

The Romanian paper APARAREA PATRIEI runs an article written by its editor-in-chief after visiting Panmunjom, which says: The great victory of the Korean people in the fatherland liberation war proved that no force on earth could subdue a people who rose up courageously for defending their sovereignty and right to self-determination of their destinies.

The paper said that Comrade Kim Il-song has repeatedly put forward constructive and fair proposals for national reunification including the proposal for founding the Democratic Confederal Republic of Koryo to end the tragedy of division and achieve the independent and peaceful reunification of the country.

The paper declares that the Romanian people express full support to and solidarity with the Korean people in their struggle for their country's peaceful, democratic reunification.

DPRK DAILIES URGE U.S. TROOP WITHDRAWAL FROM S. KOREA

SK111525 Pyongyang KCNA in English 1500 GMT 11 Aug 82

[Text] Pyongyang, August 11 (KCNA)--All papers here today print editorials in connection with the closing of the month of anti-U.S. joint struggle, which demand the immediate withdrawal of the U.S. imperialist aggression forces from South Korea in accordance with the unanimous demand of the worlds people.

An editorial of NODONG SINMUN titled "Withdrawal of U.S. Imperialist Aggression Forces From South Korea is Demand of the Worlds People" says: The whole course of the month of anti-U.S. joint struggle this year showed that the international movement of solidarity supporting the Korean peoples just cause of achieving the independent and peaceful reunification of the country after the withdrawal of U.S. troops from South Korea is gaining momentum and developing with each passing day.

The editorial goes on:

During the month of anti-U.S. joint struggle many solidarity messages or letters supporting the policy of our party and the government of the DPRK for the independent and peaceful reunification of the country came to the great leader Comrade Kim Il-song from heads and leaders of party and state and leading personnel of progressive political parties, public organisations, groups for the study of the Chuche idea and committees for supporting the reunification of Korea, friendship organisations and fighting organisations of various countries and from participants in solidarity meetings.

Official personages and people of all walks of life in various countries who organized solidarity activities during the month of anti-U.S. joint struggle expressed full support to the proposal for founding the Democratic Confederal Republic of Koryo advanced by the great leader Comrade Kim Il-song and reclarified their firm determination to further expand the movement in support of the reunification of Korea.

They vehemently denounced the U.S. imperialists policy of colonial occupation of South Korea and reckless new war provocation manoeuvres against our republic and the treachery of the Chon Du Hwan fascist clique, the

lackey of U.S. imperialism, and strongly demanded the immediate withdrawal of the U.S. imperialists along with their aggression forces from South Korea.

Both in form and method and in scale and content the month of anti-U.S. joint struggle this year was a militant month during which the international anti-U.S. joint action and the international solidarity movement supporting the Korean people were further intensified.

We extend deep thanks to the governments, political parties, public organisations, fighting organisations, organisations for friendship with the Korean people, committees for supporting Koreas reunification in all countries, international organisations and international democratic organisations, personages of all walks of life and the worlds peaceloving people for their unstinted support and solidarity expressed for the Korean people during the month of anti-U.S. joint struggle.

As unanimously stressed by the worlds people, it is entirely due to the U.S. imperialists occupation of South Korea and their manoeuvres for the permanent split of the Korean nation that Korea has not yet been reunified.

The withdrawal of the U.S. troops from South Korea and the termination of the U.S. imperialists interference in the internal affairs of Korea are a prerequisite to the reunification of our country.

In accordance with the demand of our people and the worlds people and with the resolution of the 30th session of the U.N. General Assembly, the U.S. imperialists must withdraw from South Korea at once, taking along all their armed forces of aggression including nuclear weapons, renounce the "two Koreas" policy, stop encouraging the puppets and take their hands off Korea.

Unshakable is the will of our people to clear South Korea of the U.S. imperialist aggression forces, found the Democratic Confederal Republic of Koryo and thereby achieve the reunification of the country.

The Korean people enjoying the unqualified support of the worlds people will certainly carry out the historic cause of national reunification.

We are firmly convinced that as in the month of anti-U.S. joint struggle the peoples of socialist, non-aligned and other developing countries and the peaceloving people of the world will further expand the international movement of solidarity in support of the Korean peoples cause of reunification.

BURMESE, AFGHAN MEDIA URGE U.S. WITHDRAWAL

SK190446 Pyongyang KCNA in English 0335 GMT 19 Aug 82

[Text] Pyongyang, August 19 (KCNA)--Burmese and Afghan mass media recently published articles supporting the Korean peoples cause of national reunification and denouncing the new war provocation manoeuvres of the U.S. imperialists and the Chon Tu-hwan military fascist clique, according to reports.

The Burmese papers "GUARDIAN," "WORKING PEOPLES DAILY," "BOTATAUNG," "TSEMONG" and "LIKTA PYEITHU NEZIN" carried an article titled "Way For Koreas Independent and Peaceful Reunification."

The paper "GUARDIAN" says:

The most important problem for the reunification of Korea is to make foreign troops withdraw from South Korea and terminate the imperialists interference in the internal affairs of Korea.

For the independent reunification of Korea it is also imperative to decisively check and frustrate the South Korean authorities policy of dependence upon foreign forces.

The most realistic and reasonable way for the independent and peaceful reunification of Korea at present is to found the Democratic Confederal Republic of Koryo as proposed by President Kim Il-song.

The Burmese News Agency and TV broadcast reported the same content.

The Afghan paper "ANIS" in an article titled "U.S. Imperialists, Get Out of South Korea at Once!" says: For the independent and peaceful reunification of Korea the U.S. troops must withdraw from South Korea, taking along nuclear and all other destructive weapons and combat equipment, and leave the Korean question to the Koreans themselves.

Another Afghan paper "TRUTH OF SOLDIER" in an article captioned "U.S. Imperialism and Chon Tu-hwan Clique Are Sworn Enemies of Korean Peoples" exposes the new war provocation manoeuvres of the U.S. imperialists and the Chon Tu-hwan military fascist clique and strongly demands the immediate withdrawal of the U.S. imperialist aggression forces from South Korea.

OVERSEAS KOREANS' PAPER HITS CHON'S SUPPRESSION

SK180447 Pyongyang KCNA in English 0338 GMT 18 Aug 82

[Text] Pyongyang, August 18 (KCNA)--The August 7 issue of "NEW KOREA TIMES," a newspaper of Korean residents published in Canada, printed an editorial exposing the Chon Tu-hwan fascist cliques brutal suppression.

It points to the fact that the fascist clique prohibited the sale of a collection of poems brought out by Kim Chi-ha for the first time after his release from prison with the "permission" of the authorities and is suppressing persons connected with the publication of the book under a fascist evil law.

It is a method of the Chon Tu-hwan "regime" to "permit" the publication of the book and arrest its publishers the next day on charges of "violation of the law," the editorial says.

It recalls that the puppet clique tried 26 persons involved in the publication of books by Yi Tae-pok, director of the Kwangminsa Publishing House in South Korea with the authorities "sanction" on charges of "violation of the law" and passed life imprisonment upon him.

It says: They were treated like a beast and forced by tortures to sign forged "confessions," and penalties were passed upon them at the court with the fabricated "confessions" as "evidence."

The Chon Tu-hwan "regime" takes it as its policy to stamp out South Korean intellectuals, young students and working masses.

The Chon Tu-hwan "regime" is bartering away the nations traditions, history and even culture, to say nothing of the economy. So, the outside forces are helping the Chon Tu-hwan dictatorship. Therefore, the Chon Tu-hwan "regime" must resign as early as possible.

JAPANESE PROTEST BOOKS, KIM TAE-CHUNG ABDUCTION

SK140838 Pyongyang KCNA in English 0800 GMT 14 Aug 82

[Text] Tokyo, August 12 (KNS-KCNA)--On the occasion of the lapse of nine years since the abduction of Kim Tae-chung, representatives of the "Let Use Rescue Kim Tae-chung! The August 8 Action Committee" on August 9 called at the prime ministers residence and the Education and Foreign Ministries of Japan and handed over to the authorities concerned a resolution demanding an immediate release of Kim Tae-chung and a special resolution protesting against the revision of textbooks by the Japanese Government which were adopted at a meeting on August 7.

Participating in the action requesting the release of Kim Tae-chung were professor of Chuo University Narihiko Ito who is representative of the action committee, Shigeru Yoshimatsu, general secretary of the "National Council of Societies for Supporting the Japan-Resident Korean Political Prisoners in South Korea," the vice-director of the international department of the Japan headquarters of "The National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" (Hammintong), and others.

Accompanying them were Shozo Hasegawa, socialist member of the House of Representatives of Japan.

The representatives also conducted an activity vis-a-vis the puppet embassy in Japan in demand of the release of Kim Tae-chung.

Meanwhile, on August 10, Chuji Kuno, chairman of the Dietmens League for Promotion of Japan-Korea Friendship, and others handed over a letter of request to the Japanese prime minister in connection with the revision of textbooks by the Japanese authorities, in which they said: "It is an act of justifying the past colonial rule over Korea and looking down upon the Korean people. We strongly demand an immediate step at least for the development of Japan-Korea friendship."

PRISONERS' FAMILIES STAGE SIT-IN IN SEOUL

SK120820 Pyongyang KCNA in English 0800 GMT 12 Aug 82

[Text] Pyongyang, August 12 (KCNA)--Family members of South Korean political prisoners staged a hunger sit-in struggle for the second straight day in demand of the release of the jailed political dissidents, according to a foreign press report.

Some 30 family members on the morning of August 9 assembled at the Christian Hall in Seoul. They put anti-"government" slogans on the walls of the room and entered a hunger struggle for an indefinite period. Among them there is Yi Hui-ho, wife of democrat Kim Tae-chung.

They issued a statement demanding a quick release of the political prisoners.

In the statement they said that "the present government continues reprisals against the democrats" and that "the health of the prisoners of conscience has utterly been broken by tortures."

The anti-"government" slogans on the walls of the room where they were waging the hunger sit-in read: "Release all the political prisoners!" "An end to all tortures!"

In an effort to break up their struggle the Chon Tu-hwan fascist clique are suppressing and persecuting them, not allowing those who leave there once to return. Some of the family members could not return after they left the Christian Hall for a visit to their homes on the afternoon of August 9.

The protesters continued their hunger sit-in struggle on August 10, defying the vicious crackdown and persecution by the fascist clique, says the report.

'KCNA' DENOUNCES PUSAN TRIAL SENTENCES

SK130412 Pyongyang KCNA in English 2202 GMT 12 Aug 82

[Text] Pyongyang, August 13 (KCNA)--The South Korean military fascist clique staged a fascist trial of those involved in the arson at the "American Cultural Centre" in Pusan at the puppet Pusan District Court on August 11 and sentenced Mun Pu-sik and Kim Hyon-chang to death on charges of violation of the "national security law" and "incendiarism," according to a report.

They passed life imprisonment on students Kim Un-suk and Yi Mi-ok and prison terms ranging from 2 to 15 years upon Pastor Choe Ki-sik and the remaining youths and students involved in the incident.

These harsh penalties are aimed at stamping out the trend of the anti-U.S. struggle for independence rapidly growing among the South Korean people, winning the favour of U.S. imperialism, the master, and prolonging their dirty life under his patronage.

But, the fascist gang will not be able to extinguish the furious flame of the anti-U.S. struggle for independence raging all over South Korea.

ORGANS REPORTED GOUGED FROM CONDEMNED PRISONERS IN S. KOREA

SK122314 Pyongyang KCNA in English 2206 GMT 12 Aug 82

[Text] Pyongyang, August 13 (KCNA)--The Chon Tu-hwan thugs gouged out eyeballs and kidneys from two of four prisoners under death sentence just before executing them in Seoul in the daytime of July 22, according to South Korean newspaper reports.

After transplanting them on rich men, they shamelessly blab that the victims "donated" them and they "returned to life."

In the past days, the Pak Chong-hui clique cut off kidneys from dead babies and sold them off to foreign countries. And now, the Chon Tu-hwan group commit the aforesaid crime without hesitation.

Our people and human conscience will never pardon the devils who staged a bloodbath in Kwangju by running tanks over and bayoneting thousands of, tens of thousands of, patriotic people, sentenced to death patriots who had fought for national reunification and gouged out eyeballs and kidneys from them just before their execution.

DPRK DAILY ON CHON'S TORTURE OF PRISONERS

SK151610 Pyongyang KCNA in English 1510 GMT 14 Aug 82

[Text] Pyongyang, August 14 (KCNA)--NODONG SINMUN today prints a signed article exposing the crime of the South Korean puppet clique in selling internal organs of fellow countrymen.

The paper says:

As already exposed, the puppets offered thousands of, tens of thousands of fellow countrymen to the U.S. imperialist aggressors to be killed as an object of experiment of bacteriological weapons and used their dead bodies as a source for the "export of internal organs."

The puppets introduced into South Korea a detachment of the U.S. army unit 406, a notorious bacteriological warfare unit, set up bacteriological laboratories in various parts and offered even colleges and universities including the Koryo and Kyonghui Universities as an organ for the U.S. imperialists bacteriological study for the slaughter of people. And they committed an unpardonable criminal act, offering poor people as an object of experiment of bacteriological weapons.

The bestial bacteriological experiments conducted by the U.S. imperialists and the puppet clique caused the spread of epidemic hemorrhagic fever, contaminated the land of South Korea with horrible poisonous germs and killed people en masse in different parts.

The traitorous clique sold even internal organs of people poisoned to death due to experiment of bacteriological weapons to commit more unpardonable crimes against the nation.

The puppet clique set up secret mortuaries in North Kyongsang Province and other parts of South Korea and cut out livers and kidneys from dead bodies and sold them to bacteriological (?organ) research centers in Maryland and other parts of the United States.

From 1970 the puppets sold more than 4,000 kidneys of people every year to the "General Laboratory" in the United States, at 25 dollars for each pair.

In this connection a Japanese airliner admitted that it carried 130 times load containing 433 kidneys of South Koreans from November 1, 1975, to July 5, 1976. A South Korean professor of anatomy admitted that on the order of the puppet authorities he sold 100-150 human kidneys every month.

Facts clearly tell that the South Korean puppets are unheard-of traitors who ceased to be Koreans, beasts in human skin and vicious murderers.

The South Korean people will never pardon the Chon Tu-hwan clique of traitors.

KOREAN YOUTH IN JAPAN SCORE PENALTIES ON ARSONISTS

SK180457 Pyongyang KCNA in English 0343 GMT 18 Aug 82

[Text] Tokyo, August 16 (KNS-KCNA)--The Central Standing Committee of the League of Korean Youth in Japan and the Central Standing Committee of the Union of Korean Students Studying at Japanese Schools, issued statements respectively on August 14 denouncing the Chon Tu-hwan military fascist clique for passing capital punishment and heavy penalties upon persons involved in the arson at the "American Cultural Centre" in Pusan.

In its statement the Central Standing Committee of the League of Korean Youth in Japan stresses: The arson at the "American Cultural Centre" in Pusan was an eruption of wrath and resentment pent up in the hearts of the South Korean people, youth and students against the 37 year long colonial rule of U.S. imperialism and a hundred times just patriotic struggle for driving out the U.S. imperialist aggressors, the sworn enemy, and restoring the sovereignty of the nation, and it can never be a crime.

The U.S. imperialists and their lackeys, the Chon Tu-hwan fascist clique, must be clearly mindful that if they persist in the reckless suppression going against the desire of our people to clear South Korea of the U.S. imperialists and achieve the reunification of the country, they will be burnt to death never to revive in the raging flames of the struggle against U.S. imperialism and for independence.

The statement of the Central Standing Committee of the Union of Korean Students Studying at Japanese Schools condemns the U.S. imperialists as murderers who instigated their faithful lackey, the Chon Tu-hwan clique, to suppress with bayonets hundreds of thousands of patriotic people calling for the country's sovereignty and democracy.

It strongly demands the U.S. imperialists to withdraw from South Korea at once, taking along all their weapons of aggression.

ROK DAILY VIEWS HEAVY PENALTIES IMPOSED ON ARSONISTS

SK180803 Seoul KYONGHYANG SINMUN in Korean 11 Aug 82 p 10

[Article by reporter Pak Su-man]

[Excerpts] The court has passed penalties on the defendants involved in the arson at the U.S. Cultural Center in Pusan. This reflects the court's recognition that, not to mention the arson's resulting fatalities, the arson was motivated by the defendants' leftist ideology, making it a serious social problem. It is understood that sentencing catholic Father Choe Ki-sik to prison shows that only religious activities should be allowed under the existing legal system.

1. On Father Choe Ki-sik's sheltering the criminal offenders:

Whether or not Father Choe's sheltering of the offenders is criminal has drawn attention, because friction between canon law and positive law has become tangible through the case for the first time in our country. By sentencing Father Choe to jail, the court has supported the position of positive law that even clergymen are subject to punishment without exception before national laws and that only religious activities shall be allowed under the existing legal system.

2. On the arson:

The panel has shown its firm stance that the arsonists should be severely punished by passing heavy penalties on Kim Hyon-chang and Mun Pu-sik and the 5-member arson team. It is understood that arson that claimed the life of a student engaged in study cannot raise sympathy. The arsonists themselves have shown the attitude that they had no excuse for killing a student with their arson.

The prosecution has found that the arsonists wanted a subversive popular uprising and the withdrawal of the U.S. troops from Korea, prompted by alienation between the United States and Korea. The court accepted this security-linked assertion of the prosecution. The panel has deplored the fact that the result of the arson made our position toward the United States--our 100-year-long close ally--awkward and that it plunged our government into a predicament in international society.

3. On leftist ideology:

The view held on the indoctrination of the arsonists and its role in motivating the arson was important in determining the nature of the arson. The defendants asserted in their statement to the court that their gatherings were not aimed at inculcating leftist ideology, but at criticizing realities. However, the court judged that, in view of their radical acts and the books they read in the course of studying ideology, their study was far from being purely academic.

The prosecution pointed out that their leftist nature was proven by their authorship of leaflets on "The Complete Preparations for Northward Invasion" and "The Withdrawal of the U.S. Troops From Korea" and their secret listening to the broadcasts of North Korea.

The court announced that it found the defendants guilty of assisting the activities of anti-state organizations by echoing the ideologies of overseas communist organizations and North Korea.

We view the heavy sentences passed on the defendants as the consequences of their criminal act and as a warning against impure leftist attempts to penetrate campuses.

ROK DAILY VIEWS PLAN FOR SEOUL OLYMPICS, ASIAN GAMES

SK161307 Seoul CHUNGANG ILBO in Korean 11 Aug 82 p 3

[Commentary by reporter Pak Kun-pae]

[Excerpts] The master plan for the 1988 Seoul olympics and the 1986 Asian games announced by the Ministry of Sports on 11 August gave an outline of the scope and contents of these two great national events that is judged, at this point, to be most reasonable. The gist of the plan lays out a total of 566 projects and a finalized budget amounting to 606 billion won. This is the first official plan for the Seoul olympics and Asian games and will serve as the guideline for various preparatory works.

It appears that the plan was announced to brush aside the prevailing speculation among some Koreans that the country may suffer a huge financial deficit by hosting the olympics and Asian games, one following the other by 2 years. The speculation points to previous instances of foreign countries that have suffered inflation as a result of hosting the olympics. Therefore, the plan showed an optimistic view that the nation will not suffer any side effects from hosting the olympics and Asian games. Moreover, it presented a view that the foundation for internationally promoting the political, economic and cultural position of the nation will be consolidated by hosting the international games, thereby demonstrating a firm will to successfully carry out the events.

As revealed by the concerned official of the Ministry of Sports, we should anticipate a considerable increase in expenditures during the execution of the projects since the budget was designed for the minimums and in consideration of previous instances in other countries. On the other hand, there is a strong possibility that the income projects of the preparatory committee of the Seoul olympics, such as the sale of souvenirs and lottery tickets, may face many difficulties. In particular, this master plan failed to show any concrete measures for expanding accommodations--the most serious problem--improving the urban circumstances and removing any public nuisance. The plan was designed to shift the issue to the general development plan of national land.

Therefore, some doubts as to whether or not hosting the olympics and Asian games will be successful are still prevailing. In particular, the plan

estimates the number of foreign tourists to be from some 150,000 to 350,000. However, this plan only vaguely presents the types of accommodations, such as expanding boardinghouses on campuses, using newly built apartments as temporary hotels, lodging visitors in private homes, anchoring passenger ships at sea off Inchon and so forth, including using the existing hotels and high-class inns, which only have a total of 30,000 rooms.

According to the plan of income and outgo, expenditures will be drastically increased beginning next year and some 68 billion won of deficit will be incurred by 1984. It is planned that this deficit will be supplemented by loans, thus raising the possibility that it would function as a minor factor for inflation.

'NODONG SINMUN' MARKS PUBLICATION OF KIM IL-SONG'S WORK

SK121630 Pyongyang KCNA in English 1532 GMT 12 Aug 82

[Text] Pyongyang, 12 Aug (KCNA)--Papers here today dedicate articles to the 15th anniversary of the publication of "Let Us Intensify the Anti-imperialist, Anti-U.S. Struggle," an immortal classic work of the great leader Comrade Kim Il-song.

In an article titled "Programmatic Document Illumining Road to Victory of Cause of Anti-imperialism and Independence" NODONG SINMUN says:

In his work the respected leader Comrade Kim Il-song explained the need for the peoples of Asia, Africa and Latin America to struggle resolutely against imperialism to the end and put forward the policy that all the anti-imperialist forces should unite and direct the spearhead of struggle mainly against U.S. imperialism and wage the anti-U.S. joint struggle, defend the victorious revolution and support the fighting peoples.

The great leader Comrade Kim Il-song also analyzed the aggressive nature and vulnerability of U.S. imperialism and clarified the basic stand to be firmly maintained in the anti-U.S. struggle.

"Let Us Intensify the Anti-imperialist, Anti-U.S. Struggle," a historical work of the respected leader Comrade Kim Il-song, is a great torch which gave a correct answer to the urgent problems raised by the world revolution and clearly indicated the road of victory of the cause of anti-imperialism and independence and an undying banner which further developed the revolutionary theory of the working class and enriched the ideological and theoretical treasure-house of mankind.

Praising the classic work of the great leader Comrade Kim Il-song as a lighthouse brightly illumining the road of the anti-imperialist, anti-U.S. struggle and a powerful ideological and theoretical weapon for the victory of the world revolution, the world revolutionary people more vigorously waged the struggle for the cause of anti-imperialism and independence with a confidence in sure victory and revolutionary fighting spirit.

The trend of our era demands that the progressive people of the world more energetically struggle against imperialism and colonialism and build an independent, new world.

The outstanding idea and the revolutionary policy propounded by the great leader Comrade Kim Il-song in his historic work "Let Us Intensify the Anti-imperialist, Anti-U.S. Struggle" carry great significance here, the article [words indistinct]:

Concentrating attack on U.S. imperialism is an essential demand proceeding from the dominant position of U.S. imperialism in the world imperialist system and its counterrevolutionary role.

U.S. imperialism is the strangler of national independence, wrecker of peace and security and basic hurdle lying in the way of the people's cause of chajusong (independence).

Accordingly, the world's progressive peoples who prize justice and peace and strive for independence are resolutely struggling against the arms build-up of the U.S. imperialists and their interference in others internal affairs and nuclear war plan, giving warning against their reckless policy of aggression and war.

In order to successfully wage the struggle against U.S. imperialism, it is imperative to strengthen the unity of anti-imperialist, independence forces.

An important problem in opposing the U.S. imperialist policy of aggression and war at present is to expand and develop the nonaligned movement and enhance its role.

The great leader Comrade Kim Il-song, basing himself on a scientific analysis of the nature of imperialism, clarified that the world's progressive people should always firmly maintain a revolutionary stand on U.S. imperialism.

The world's revolutionary people should not harbour any illusion about U.S. imperialism but keep a principled stand and wage an uncompromising struggle against it.

In conclusion the article stresses: Our people will as ever firmly unite with the world's people who defend chajusong and develop the friendly and cooperative relations with them, check and frustrate the U.S. imperialists manoeuvres of aggression and war, defend world peace and security and vigorously accelerate the cause of making the whole world independent.

'NODONG SINMUN' COMMEMORATES XIAOHAERBALING MEETING

SK111555 Pyongyang KCNA in English 1538 GMT 11 Aug 82

[Text] Pyongyang, 11 Aug (KCNA)--NODONG SINMUN today dedicates an article to the 42nd anniversary of the historic meeting at Xiaohaerbaling, Dunhua County, at which the great leader Comrade Kim Il-song indicated the road of struggle for making preparations to meet the great event of national liberation in the period of the anti-Japanese armed struggle.

The article says: Basing himself on a scientific analysis of the demand of the developing revolution and the trend of the development of the general situation, the great leader Comrade Kim Il-song convened a meeting of military and political cadres of the Korean peoples revolutionary army at Xiaohaerbaling, Dunhua County, on August 10, 1940, and made a historic report titled "On Preparing for the Great Event of National Liberation."

In his report, the great leader gave a comprehensive analysis of the prevailing situation, lucidly explained that the underhand manoeuvres of the Japanese imperialists did not show their mightiness, but were a desperate attempt of the doomed, and therefore, their fall was a matter of time, and set forth a new strategic task to cope with the prevailing situation.

At the meeting the great leader Comrade Kim Il-song put forward a new fighting policy of preserving and building up the forces of the Korean peoples revolutionary army, the leading force of the Korean revolution, and bringing up the KPRA men to be competent political and military cadres and of going over to small-unit operations from large-unit ones to meet the great event of national liberation with full preparations, the article notes, and goes on:

The new fighting policy set forth at the meeting was a wisest one for preserving and building up the forces of the KPRA as much as possible and a revolutionary one for greatly strengthening the internal forces of our people by intensifying the mass political work among broad segments of people.

Thanks to the correct fighting policy put forward by the great leader and his wise leadership, all the men of the Korean peoples revolutionary army were brought up to be competent political and military cadres firmly prepared politically and militarily and well versed in modern regular warfare as well as guerrilla warfare.

Through the struggle for implementing the policy advanced at the historic Xiaohaerbaling meeting, the fighting capacity of the KPRA was substantially strengthened and preparations were thoroughly made to organise and mobilize the entire nation for the final decisive battle against the Japanese imperialists.

After such thoroughgoing preparations the great leader issued an order of final attack for the liberation of the country to the entire units of the Korean peoples revolutionary army in August, 1945.

From the first moment of the operations for the liberation of the country all the commanders and men of the KPRA fully displayed matchless valor, self-sacrificing spirit and mass heroism and finally defeated the Japanese imperialist aggressors to achieve the historic cause of national liberation.

In conclusion the article says: Thanks to the wise guidance of the respected leader Comrade Kim Il-song who always put forward an outstanding strategic policy in conformity with the subjective and objective situation of the developing revolution and energetically led the struggle for its implementation, our people could free themselves from the nearly half a century long colonial rule of the Japanese imperialists and vigorously turn out to the struggle for building a new country.

The respected leader is, indeed, the savior of the destiny of the country and the nation and the great leader who gave our people, once forsaken and maltreated, full political rights and a worthwhile, new life.

LOCAL INDUSTRY DEVELOPS WITH KIM IL-SONG GUIDANCE

SK091531 Pyongyang KCNA in English 1517 GMT 9 Aug 82

[Text] Pyongyang, 9 Aug (KCNA)--The production of local industry has grown 14.7 times over the past 20 years in the Democratic People's Republic of Korea. In this period the number of local industrial factories in each county increased from 11 to over 20 on an average.

To increase the production of mass consumption goods the great leader Comrade Kim Il-song repeatedly gave on-the-spot guidance to Changsong County, North Pyongan Province, and created a model of local industry. In August 1962, he convened a historic joint conference of local party and economic functionaries there and made leading functionaries from all provinces, cities and counties see for themselves and learn from the example and experience of the county. This marked a new stage in the development of our local industry. Today the local industry, as an important component of our independent national economy, accounts for more than 50 per cent of the production of mass consumption goods and constitutes the biggest source of the local budgetary revenue. All local areas produce the full amount of foodstuffs and nearly the whole amount of various kinds of goods for daily use by their own efforts to meet the growing demands of the people.

Thanks to the powerful assistance of the heavy industry, the technical equipment of the local industrial factories has been substantially improved. All production processes have been mechanised and many of them semi-automated or fully automated. The number of technicians and specialists working in the local industry has increased by tens of thousands. Along with the expansion of the local industry, hundreds of thousands of people proceeded to the labour front and the number of housewives' work teams rose to thousands.

The development of the local industry has made it possible to bring the places of production closer to the raw material resources and places of consumption, evenly distribute the productive forces to all parts of the country, further strengthen ties between industry and agriculture, mobilize labour force rationally and increase income per household.

'NODONG SINMUN' REVIEWS SONGS OF LOYALTY

SK101118 Pyongyang Domestic Service in Korean 2235 GMT 9 Aug 82

[NODONG SINMUN 10 August article: "Song of Conviction and Will of Our People Who Follow Party Forever"]

[Excerpts] In our country today, a number of excellent songs with revolutionary and popular contents which reflect the aspirations of the times and people have been written. They are vigorously encouraging the party members and workers who have launched into the work of creating the speed of the 1980's.

Among the songs, the song "We Will Traverse the Single Road Forever," which reflects deeply the party members and workers' absolute trust in and loyalty to our party, is being sung with greater power each day.

The great leader Comrade Kim Il-song has taught: With unwavering conviction, our people, who along with the party have traversed the arduous and rewarding path of revolution and construction, place endless trust in and follow our party. They totally entrust their fate to the party.

Because the song "We Will Traverse the Single Road Forever," one of the excellent songs which have been written in the days of the workers party, genuinely reflects the revolutionary aspirations and rock-firm will of our people, who wish to forever trust in and follow the party, the song warmly touches people's hearts.

It is necessary for a musical work to reflect the aspirations of the times and people to touch the people's hearts with great influential power and vitality. Today, our people are overflowing with a firm conviction to accomplish under the wise leadership of our party the revolutionary cause of Chuche which the great leader Comrade Kim Il-song has achieved in his protracted path of revolutionary struggle for over a half century.

To entrust their fate to our party, which is guiding the revolutionary cause of Chuche to brilliant victory, and to march forward while sharing their fortunes with the party forever is our people's unanimous aspiration and important ideological and spiritual trait of the party members and workers.

The song "We Will Traverse the Single Road Forever," glorifies the noble aspirations and will which are overflowing in our era in a solemn, magnificent and refined fashion.

"How many miles, along the faraway rugged mountain road, have we traversed? Having the same aspirations, we have traversed the long road of revolution. No matter how we may traverse a road of glory or a rigorous road, we will traverse the single road forever following the party center."

The words of the song meaningfully reflect, through a poetic image full of hidden meaning, the path of our revolution--which has traversed a road of victory and glory filled with hardships. The words of the song make the people warmly feel great pride in carrying out the revolution under the leadership of the great leader and the glorious party center.

Endless pride has struck deep roots in our people's hearts and our people carry out the revolution while upholding the party. The ardent trust in and loyalty to the party are the noble ideology and feelings which have grown, through the long days of traversing the difficult and rigorous road of revolution, in our people's hearts and which have struck deep roots in people's hearts through their life experiences.

The road which our revolution has traversed has been an arduous path. For a long period of time over a half century since the first ranks of the Korean revolution set out on a solemn march in a vast wilderness with the banner of down-with-imperialism, the great leader Comrade Kim Il-song has resplendently illuminated the path of the revolution while holding high the beacon fire of the immortal Chuche idea and has vigorously led our wandering people to the path of revolution full of glory.

In the era of national suffering in which the fatherland's territory was trampled underfoot by the Japanese imperialists and people wandered between life and death in distress, the young communists--the first Chuche-type communist revolutionaries--held in high esteem the great leader as the guiding star [hyangdosong] of the Korean revolution. Since then, thousands upon thousands of revolutionary fighters have rendered their wholehearted loyalty, firmly rallying around the leader and the party from generation to generation.

By holding in high esteem the great leader as the sun of the nation, our people could resolutely rise from the darkness in which we had no hope for survival and could greet the new day of national liberation by crushing the Japanese imperialists. Thus, our people raised a mighty and dignified socialist country in the land, once full of backwardness and poverty, by carrying out the difficult and complex social revolution.

The Chuche revolutionary cause pioneered by the great leader in the Paektu Forest is being brilliantly inherited by our glorious party today, and

the Korean revolution is advancing toward a new higher stage. Our party is vigorously leading the times and revolution to brilliant victory, flying the brilliant banner of the Chuche idea on the hill of our era moving ahead to independence.

With the slogan of Chuche-orientation of the entire society, the people, society and nature have changed beyond recognition and the might of the Chuche fatherland is being strengthened with each passing day.

Today, our party and our people are ideologically united more firmly than ever before. Ceaseless upsurges and innovations are being effected on all fronts of socialist construction under the wise leadership of the party center.

Indeed, the era of the glorious workers' party--an era of great prosperity and development unprecedented in our history--has opened up. The future of the Korean revolution is more bright because it advances under the guidance of our party. Proceeding from this precious truth taught by our arduous yet glorious revolution, our people totally entrusted their fate to the party, firmly trusting the party. They solidified further their revolutionary will to remain loyal to the party generation after generation.

The song "We Will Traverse the Single Road Forever" truly reflects the ardent sentiment overflowing in the hearts of all people. Thus, this song greatly impressed the people.

The song "We Will Traverse the Single Road Forever" is not only a song of glory about the endless pride of our people who traversed the arduous yet proud road of revolution in the past but also is the revolutionary song. It is a heartfelt song reflecting our people's rock-firm will to uphold the party forever and advance the road by overcoming storms, no matter how long the road may be.

How glorious was the road our people traversed following the party and the leader, and how high was the hill we climbed!

However, we should not remain satisfied with the successes we have made. The road on which we should move ahead is still long and arduous. The mountains and hills we should occupy are still in distant and high. We should achieve the historic cause of remodeling the entire society on the Chuche idea--the great cause which no one has ever achieved--and should achieve the fatherland's reunification, the supreme national task, by repulsing the most atrocious U.S. imperialists. We must build an independent world together with the revolutionary people of the world.

This sacred cause delineated by the immortal Chuche idea for the first time is a great struggle for achieving the idea of the century of the working people. The road on which we are going to move ahead is not a

broad and level highway. Violent wind and rain may hit this strange road of revolution and steep mountains and hills may block our way. We may encounter unexpected storms and may have to undergo arduous trials.

However, our people will advance forever along the single road of loyalty invariably following the party and firmly keeping our pledge solemnly made under the sacred banner of the revolution, whatever trials and difficulties may block our way.

The words of the song express our people's burning loyalty and firm will, which will not be destroyed or eliminated by anything and which will become solid as time passes, and our people's firm pledge to traverse the single road forever by following the party.

As they appreciate the significant words of the song, our people become more resolved to remain loyal forever on the single road of upholding the glorious party center by being the Kim Hyoks and Cha Kwang-sus of the 1980's, just as the young communists, including Kim Hyok and Cha Kwang-su, upheld the great leader Comrade Kim Il-song as the lodestar of the nation and as the only center of unity and cohesion at the dawn of the Korean revolution and remained loyal to him. They glorified their lofty lives as genuine communist fighters and sincere men who had revolutionary faith and a sense of the revolutionary duty.

When the people sing this song, they are resolved to devote their all to the party and the leader, to the nation and the people--just as the unheralded heroes who dedicated their energies and wisdom to the party and the leader of overcoming all trials and difficulties whether they are watched or not.

Reflected in this song is the sentiment of the revolutionary fighters who pledge to remain loyal to the party and the leader while recalling with deep emotion the past when they traversed the long road of revolution. In particular, the male trio which sounds solemn yet appealing expresses the revolutionary will of the Chuche-type revolutionary fighters, who are resolved to follow the party to the end.

The ideology and sentiment of the song overflowing with the passion of loyalty reach a climax by sounding the vigorous orchestral march music in harmony with the thundering chorus in the last movement of the song. The orchestra music and chorus, which follow the female chorus and mixed chorus, excellently express the romantic feeling of our people, advancing along the single road of Chuche with firm conviction in the victory of the revolution.

Such a romantic feeling is well reflected in the implicit and slow rhythmical tones. The song, repeating many times the simple melody by diverse techniques and methods in the chorus, trio and orchestra, expresses the sentiment of our people's boundless loyalty to the glorious party. Thus, the song endlessly moves and attracts the people.

Indeed, the song "We Will Traverse Forever the Single Road of Loyalty" is a brilliant fruition of the Chuche-type musical theory of our party for creating great musical classics. It is a clear demonstration of the justness and vitality of the theory.

With its lofty ideological nature and artistic essence, this song will resound forever as the song of faith and will of our people to follow the party to the end. This song will vigorously inspire the grand march of the Chuche-type revolutionary fighters advancing only along the road of chuche, following the party.

SOUTH KOREANS IN JAPAN SCORE PENALTIES ON ARSONISTS

SK160515 Pyongyang KCNA in English 0341 GMT 16 Aug 82

[Text] Tokyo, 13 Aug (KNS-KCNA)--The Japan headquarters of the "National Congress for the Restoration of Democracy in South Korea and the Promotion of Unification" ("Hammintong"), the "Council for National Unification," the Committee of the ROK Residents Association in Japan (Mindan) for defence of independence," the Tokyo headquarters of "Mindan" and four other organisations of "Mindan"-lining Korean residents in Japan issued a joint statement on August 11, denouncing the Chon Tu-hwan military fascist clique for passing capital punishment and heavy penalties upon persons involved in the fire at the "American Cultural Centre" in Pusan through a murderous trial.

The statement stresses that the burning of the "American Cultural Centre" by patriotic inhabitants, youth and students was a warning to the United States backing the Chon Tu-hwan "regime" which violates human rights, a punishment of its historical crimes in South Korea and an eruption of the mounting anti-American sentiments of people.

Noting that in imposing capital punishment and heavy penalties upon these patriotic inhabitants, youth and students the Chon Tu-hwan fascist clique schemes to stamp out the intensified struggle of the South Korean people against U.S. imperialism and for democracy, the statement strongly demands the revocation of the unjust sentences and the unconditional and immediate release of persons involved in the case.

Meanwhile, the "liaison council of youth and students in Japan for support to the struggle for democracy in South Korea" and the "society for defending human rights of South Korean women," organisations of "Mindan"-lining Korean residents in Japan, issued a statement that day in denunciation of the Chon Tu-hwan puppet clique's unjust sentences passed upon persons involved in the arson at the "American Cultural Centre" in Pusan.

The statement says that the United States must stop encouraging the Chon Tu-hwan gang of murderers and withdraw from South Korea, taking along all their destructive weapons.

'KCNA' CITES MALAGASY PAPER ON SPEED OF 1980'S

SK181200 Pyongyang KCNA in English 1053 GMT 18 Aug 82

[Text] Antananarivo, 15 Aug (KCNA)--The August 10 issue of the Malagasy paper ATRIKA carried an article titled "Brisk Drive for Creating the Speed of the 80s, a new speed of advance in socialist construction, in Korea."

It printed a picture of the tower of chuche idea, under which was written "The tower of chuche idea is an undying grand monument. The torch on the tower throws the rays of chuche."

The article said: Today an energetic drive for creating "the speed of the 80s" is going on in all domains and at all units in the Democratic People's Republic of Korea.

The flames of this drive that flared up at the Kim Chaek Iron Works, a metallurgical giant of the nation, are now sweeping the whole country.

Through this drive the political and economic potential of Korea will grow further still and the people's living standards be raised to a higher stage.

"The speed of the 80s" is a powerful speed of advance in which the spirit displayed in the days when the Korean people attained a great revolutionary upsurge in the revolution and construction through their hard struggle, tightening their belts, under the militant slogan "Let us race ahead at the speed of chollima!" put forward by respected President Kim Il-song, is maintained and spurred on by the speed campaign.

Dear Comrade Secretary Kim Chong-il created a new speed previously unknown in history by setting forth the revolutionary policy of the speed campaign already in the 1970s and early in the 1980s, while leading the revolution and construction as a whole, personally organized the construction of such grand monumental edifices as the Changgwang Street, the tower of chuche idea, the Arch of Triumph, the Kim Il-song Stadium, the Grand People's Study House, the Pyongyang Maternity Hospital, the Changgwang Health Complex and the ice rink and wisely guided these vast construction projects, thereby creating an unprecedented speed of construction.

Thus, "the speed of the 80s" is a new speed of advance, a speed of a leaping progress, in which chollima is spurred on by the speed campaign.

Today the struggle for creating "the speed of the 80s" is being waged in close combination with the three-revolution Red Flag movement and the movement for following the examples of the unassuming heroes under the tested guidance of the dear leader Comrade Kim Chong-il.

The indomitable struggle of the Korean people to fulfill the Second Seven-Year Plan ahead of schedule by fulfilling their assignments for this year before the set time and hit the ten long-range objectives of economic construction for the 1980s without fail, with loyal hearts for Comrade President Kim Il-song and Comrade Secretary Kim Chong-il, will bear bigger fruits in the struggle for "the speed of the 80s."

After that, he went on to write that he has put out this book to introduce such realities of the DPRK.

In the book the writer said that Korea has developed a history of 5,000 years and culture, that the Korean people have long loved their own country, have struggled against foreign aggressors and have defended their national sovereignty.

Mentioning the essence and content of the chollima movement, he stressed that the DPRK has crushed all sorts of maneuvers of the enemies within and without through this movement, creating great miracles in socialist construction.

PAKISTANIS, NEPALESE PRAISE KIM CHONG-IL

SK181146 Pyongyang KCNA in English 1023 GMT 18 Aug 82

[Text] Pyongyang, 18 Aug (KCNA)--Pakistan and Nepalese public figures highly speak of the greatness of the respected leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il.

At a meeting held in Pakistan recently to hear reports on the celebrations of the 70th birthday of the great leader Comrade Kim Il-song, Abdul Malik, secretary general of the Karachi Paksitan-Korea Friendship Association, said:

The international seminar on the chuche idea held in India showed the victory of the great chuche idea on a worldwide scale. This proves that the chuche idea is winning final victory and the whole world is unswervingly following Kimilsongism.

A large number of heads of state and party leaders participated in the celebrations of the 70th birthday of the great leader President Kim Il-song. This showed that all countries of the world espouse Kimilsongism and take it as their guideline.

The tower of chuche idea tells that the dear leader Comrade Kim Chong-il who has perfectly grasped the great chuche idea of the respected leader President Kim Il-song proclaimed the revolutionary idea of the President Kimilsongism [as received]. The tower of chuche idea should be called the tower of Kimilsongism.

The revolutionaries and progressive people of the world will dynamically advance along the road indicated by Kimilsongism, looking up to the tower of chuche idea.

Javed Ansari, chairman of the study committee of Kimilsongism of Pakistan students in Karachi, said at the meeting: Many heads of state and party leaders, economic experts and philosophers of the world are vying with each other in visiting chollima Korea to learn from the great President Kim Il-song. They were imbued with new strength after being received by him and, back home, are building a new society with confidence.

The great chuche idea is embodied in the reality of Korea.

The reality and experience of Korea are the wealth of Kimilsongism which is developed and enriched thanks to the tireless efforts of the great president Kim Il-song and the dear leader Comrade Kim Chong-il. This is why we learn from the experience of Korea. Learning from Korea means learning Kimilsongism.

The progressive people of the world are now vigorously advancing under the banner of Kimilsongism.

Manik Lal Shrestha, vice-chairman of the Nepal-Korea Friendship Association, said at a meeting held recently in Nepal to hear a report on the celebrations of the 70th birthday of the great leader Comrade Kim Il-song. He said:

The celebrations of the 70th birthday of the great leader Comrade Kim Il-song were not only a holiday of the Korean people which was most grandly celebrated for the first time in the 5,000-year long Korean history but also a great international festival.

During my visit to Korea I saw a more wonderful reality than what I saw in books or films.

The present reality of Korea clearly teaches us what we should do to realise the chajusong (independence) of the working class and build a classless society.

The chuche idea which makes everything serve man is a genuine guiding idea of the world working class.

All the successes and experiences gained by the Korean people in the revolution and construction under the wise guidance of the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il are an example of communist construction.

Communism is the ideal of mankind and this cause is a protracted work to be carried out through generations.

We know well that many countries are going through twists and turns because they failed to solve correctly the question of an heir to the leader.

This question, however, has been solved most brilliantly in Korea.

In Korea the three revolutions put forward by the great leader are being successfully carried on under the wise guidance of the dear leader Comrade Kim Chong-il. A brighter future is in store for Korea as she has the dear leader.

I wholeheartedly wish good health and a long life to the great leader Comrade Kim Il-song and the dear leader Comrade Kim Chong-il for the victory of the cause of socialism and communism in Korea and the world.
